1. Data patterns and insights:

2. My next move (intentional response to student feedback):

   I will explore this for:  2 weeks □  3 weeks □  4 weeks□
   with _________________________class/es

   Have you discussed your intent and data analysis of the feedback with students?

3. While tweaking and changing my practice, what did I notice?  What did the students notice?

   What will you now build into your practice or explore further?
