In our classroom we:
  • Share ideas and have different points of view
  • Use our imagination and take risks
  • Challenge each other to think harder
  • Feel that it is ok to make mistakes
  • Sitting with us when we are in the Pit, without telling us what to do
  • Make choices about how we show you our learning
  • Praise effort and strategies
  • Have a growth mindset
  • Are approachable and positive
  • Stay calm
  • Work, talk and learn with our peers
  • Are flexible and negotiate learning
  • Listen to everyone’s ideas
  • Never give up

In our classroom we:
  • Understand ourselves as learners
  • Know the reason for what we are learning and why
  • Explain things more clearly to those who need it
  • Have the time we need to understand and explore new ideas
  • Follow up on our questions
  • Know that all kids are different and our school is different from what they experienced
  • Know how important it is to make mistakes and encouraging us when we fail
  • Understand how our learning crosses into different subjects
  • Take the learning to the next level
  • Use processes for finding and using information independently

In our classroom we:
  • Find out about us, what we like and what we know about
  • Use technology more
  • Talk about how our learning matches our lives
  • Bring things from home that match the curriculum
  • Learn things that we are interested in that fits in with the curriculum
  • Talk about the skills we need for later on in life so we can get a job
  • Find out new ideas
  • Find out what we know first so we don’t waste time learning something we already understand
  • Explain how what we learn connects with real life
  • Link our learning to our hopes and dreams
  • Show that learning happens in different ways
  • Use lots of different activities
